

## Sankey Diagram – Income Statement

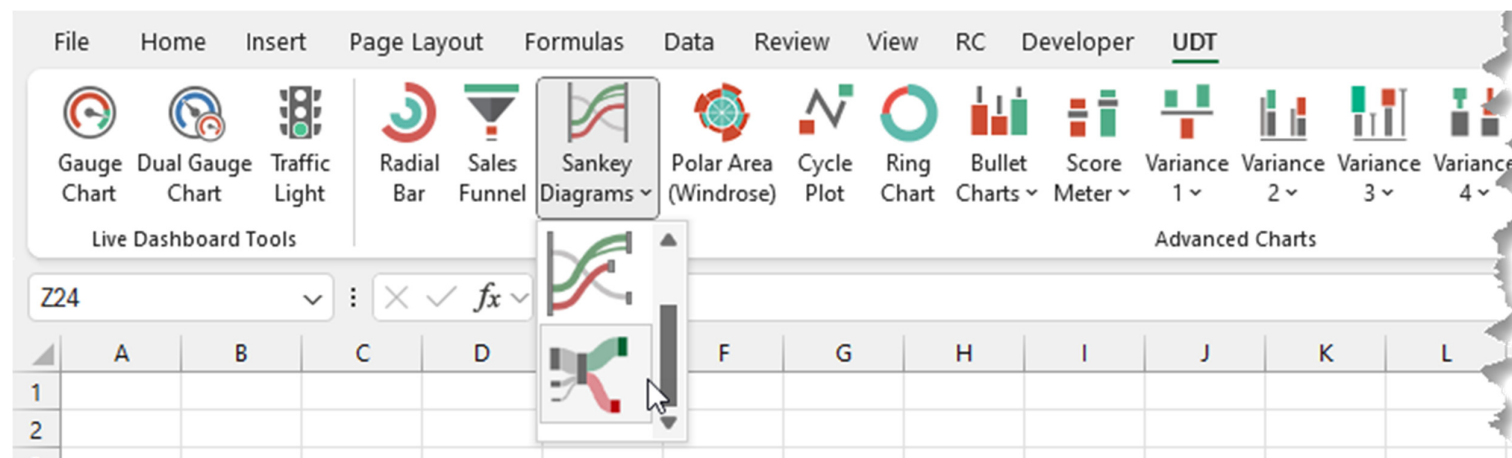

The Sankey Diagram gives you a detailed, high-level view of how your data flows and changes from one stage to the next. A Sankey Diagram is a type of data visualization that shows the path and quantity of data through various phases, categories, or stages.

In version 11, you can easily transform an Income Statement into a Sankey Diagram. Take a closer look at the new data structure!

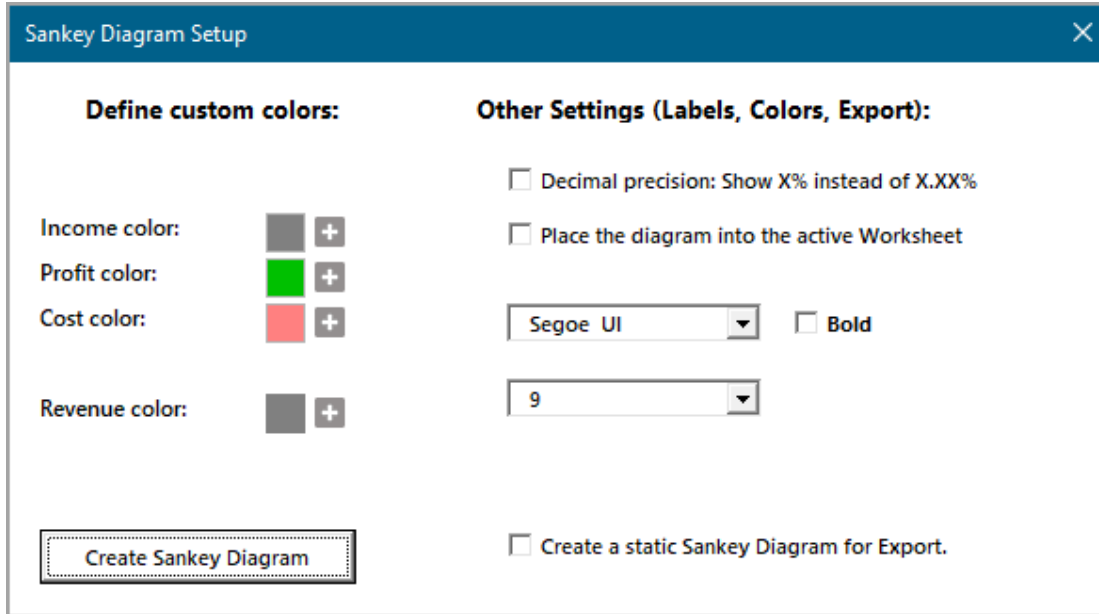

Important: You can insert these sample data sets using the **Chart Guide menu!**

Example 1: Apple Income Statement
