

Mekko Chart (Dynamic)

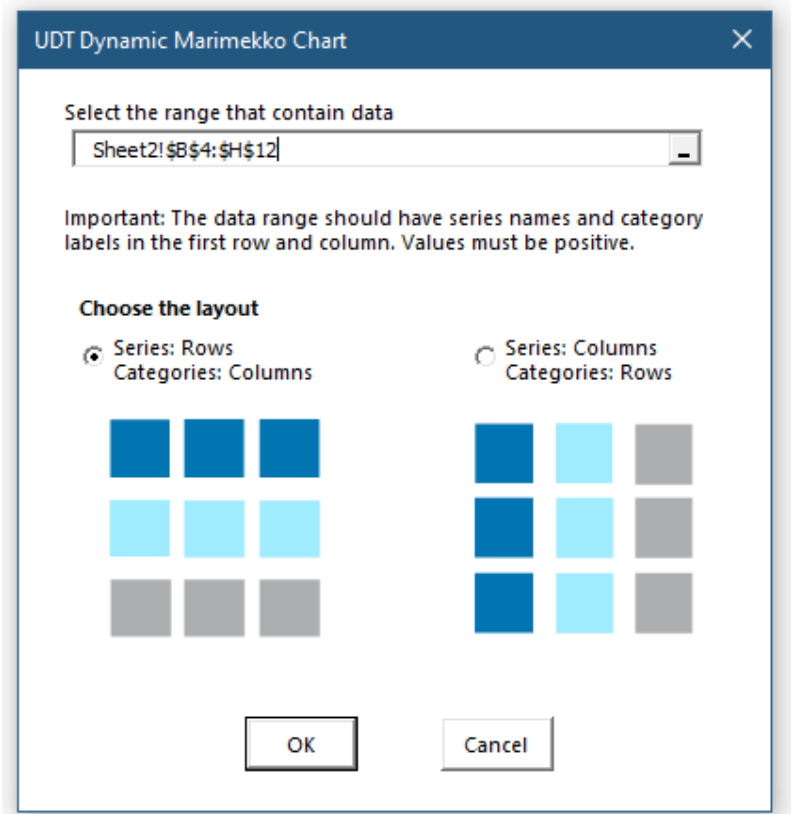

The Marimekko chart paints a picture of the overall market and helps to drive discussions about growth opportunities or acquisitions.

A Marimekko chart, also known as a market map, segments an industry or company by a customer or product. It makes it easy for your audience to understand the relationship between each segment or bar to the total.

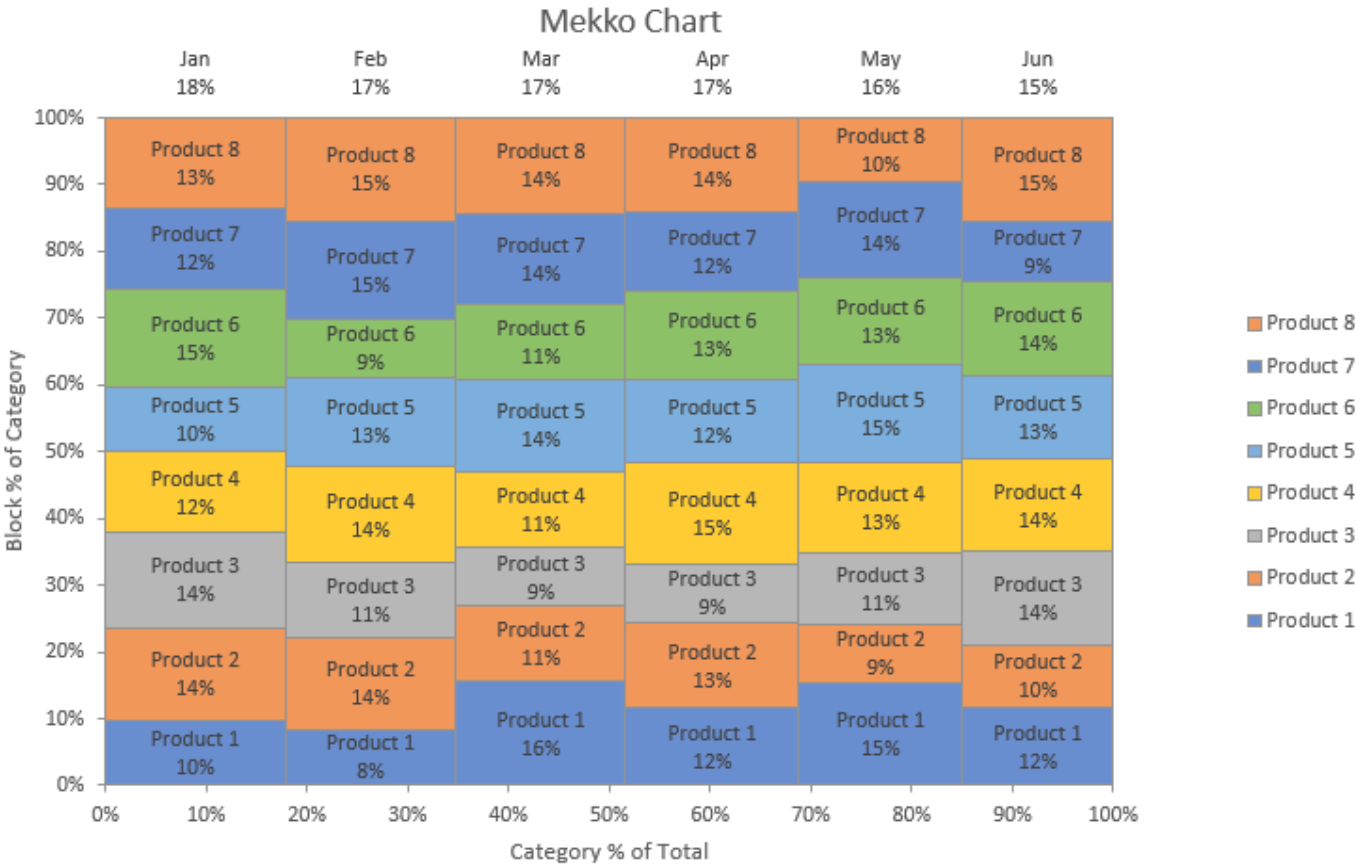

To create a dynamic mekko chart, use the drop-down list and click on the icon.

A new window will appear. Select the data range, then click OK.

The chart uses the built-in Excel color schemes.

To change the colors, select the block and apply your preferred theme.
